TAXES, DUTIES, FEES, Etc.

CUSTOMS DUTIES, Etc.

Levied under the Customs Tariff Ordinance No. 1 of 1930.

For the purpose of assessing the amount of any *ad valorem* Customs duty and for the purpose of the declarations and oaths which may at any time be required by law or regulation in relation to any question of such duty, the value of the goods for the purposes of duty shall be taken to be domestic value, as hereinafter defined, plus the extra cost of packing and packages for export, carriage to the port of shipment and all expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, and all other charges up to the time of importation into the Colony: Provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer at the place of importation.

For the purpose of this section "domestic value" shall, in respect of imported goods, be the market price at which at the time of exportation such or similar goods are offered for sale, for consumption in the country from which the goods are imported, to all purchasers in the usual wholesale quantities in the ordinary course of trade in the principal markets of such country, including the cost of packages ordinarily used in those markets, but not including any duties payable in that country.

Note.—Section 3 of the Customs Tariff (Amendment) Ordinance, 1932, which must be read in conjunction with section 4 of the Customs Tariff Ordinance, 1930, provides as follows, viz:—

"Notwithstanding anything contained in section 4 of the Principal Ordinance, the Commissioner shall be empowered, in respect of goods conveyed by air, to reduce the amount of the freight charges to be added to the value for purposes of assessment of duty to a figure of not less than one-fourth of the freight charges actually payable on such goods."

(a) Storage charges as set out in the Schedule hereto will be levied on all cargo and merchandise for which the documents (as defined below) have not been received by the Administration, subject to a free period of 144 consecutive hours (excluding Sundays and public holidays, and other days when Customs duties may not be received) calculated from the time of notice of ship's arrival given and/or posted at the Port Administration's offices. Such free period is subject to sub-clause (b) hereof.

Schedule :—

(i) Transit Shed Storage.—50 cents per ton or part thereof per day or part thereof for the first six days. Sh. 1 per ton or part thereof per day or part thereof thereafter until transfer of goods to King's Warehouse.

(ii) Stacking Ground Storage.—Half the above charges.

Where a consignment of less than one ton is stacked part in shed and part on a stacking ground, the minimum charge applicable to the location of the larger quantity shall apply to the whole.

In the case of local deliveries, goods must be removed from the sheds and stacking grounds not later than six days after the posted arrival date of the steamship concerned. On the expiration of six days, storage rent will be charged as above.

(b) Entered goods for local delivery transferred from a transit shed or stacking ground to the Central Searchers' Shed before the expiration of the free storage period will not be given, on return to a transit shed or stacking ground, the benefit of any unexpired free storage period. Importers will be allowed twenty-four hours after the examination of their goods in the Central Searchers' Shed in which to effect removal therefrom. On the expiration of such period and on the failure of the importer so to remove the goods they will be returned by the Administration to a transit shed or stacking ground at the importer's expense and will at once be liable to storage charges.

Unentered goods not removed by the importer from the Central Searchers' Shed after examination will be removed therefrom by the Harbour Authorities and taken to the transit shed or stacking ground at the importer's expense. Such goods will be given the benefit of any unexpired portion of the free storage period, calculated from the time and date the goods are taken to a transit shed or stacking ground. The charges for the removal of goods are as follows :—

Cents 10 per package up to 20 cubic feet contents.

Cents 25 per package over 20 cubic feet contents.

For the purpose of this Clause the word "documents" means and includes the Shipping Documents in respect of the cargo concerned, complete and stamped by the Customs; the Customs Entry; the Landing, Delivery and Forwarding Order; together with the necessary number of Consignment Notes in the case of goods to go up-country or of Shed Removal Orders in the case of goods for local delivery.

(i) After expiration of the free storage period, further storage may be taken advantage of at Sh. 1 per deadweight ton or part thereof per week or part thereof up to twenty-one days, after which the normal storage charges as scheduled above will apply.

(ii) The reduced storage charge of Sh. 1 per deadweight ton is subject to the proviso that if after the first seven days on rent at the reduced rate transfer charges are incurred on the goods concerned, these are to be paid for at cost by the exporter unless the ship which ultimately loads the goods has been nominated on the expiration date of the free storage period.

(b) Stacking Ground Storage—

Exports will only be stored in the open at the discretion of the Administration, in which case half the above charges will be levied.

In regard to paragraphs (a) and (b) above, when export traffic arrives at Kilindini Harbour from up-country on a Saturday afternoon, Sunday or public holiday, the free storage period in such cases will be calculated as from the first following working day.

Export storage rent on any particular cargo ceases on the date on which the ship taking it commences to load.

(c) Wet Maize and/or Wheat—

(i) Unless there is a machinery breakdown at the reconditioning plant, maize and/or wheat found to be wet on arrival in the transit sheds shall be strictly subject to the free storage period as specified in this tariff.

(ii) The elapsed period during which wet maize and/or wheat is travelling from transit shed to and through the reconditioning plant and back again will be free of storage rent.

(iii) On its return to transit shed from the reconditioning plant maize and/or wheat shall be treated as though it had not left the shed, and free storage period and rent applied to it as from the date of its original arrival in the harbour; less the free period allowed under (ii) above.

Where commodities are graded by a Government Grader, free storage for a period of 96 hours will be allowed, after the expiration of which the above charges will apply.

- (e) Acceptance at Kilindini Harbour of export cargo ex local private warehouses by rail or road vehicle.

A shipping order must be presented at the time such exports are brought to the Harbour by rail or road, in the absence of which ordinary storage charges will apply immediately. Seven consecutive days' free storage will be allowed on such cargo, provided no free storage has previously been enjoyed by the cargo concerned.

When free storage has previously been enjoyed, a free period of 48 consecutive hours only will be allowed. The free storage periods in either case will commence as follows :—

- (i) In the case of private warehouses on the low level Harbour lines, as from the time and date stated on the exporter's copy of the haulage ticket.

The only hours for which labour may be ordered are 7 a.m., noon or 1 p.m. and 4 p.m. to 7 p.m.

 PARTICULARS OF TOWN PLANNING SCHEMES IN PROGRESS

1.—MOMBASA

(i) **THE MOMBASA TOWN PLANNING SCHEME, 1926** (enacted under the Town Planning Ordinance, 1919).—Scheme applies to the Island of Mombasa with exception of the Old Town of Mombasa, an unplanned densely built over area of about seventy acres on the eastern shore of the Island at the Old Port of Mombasa. The scheme consists for the most part of pooling and re-distribution of holdings of land and re-adjustment of boundaries for the purpose of facilitating the provision of adequate roads. The scheme is being carried into effect by the Mombasa Municipal Board as Executive Authority.

Various details of the scheme are under consideration with a view to revision by means of amending schemes to be made under the Town Planning and Development Ordinance, 1931.

(ii) **MOMBASA OLD TOWN IMPROVEMENT SCHEME.**—This scheme consists of the provision of two 25-foot traffic thoroughfares through the Old Town. Adjustment of plots and holdings to conform to the new street building alignments is proceeding gradually, as opportunity offers, without further expenditure.

(iii) **MOMBASA MAINLAND NORTH (Mkomani).**—This Scheme, prepared in accordance with the Town Planning and Development Ordinance, 1931, for the control of development on the Mainland was approved and enacted in April, 1934.

2.—NAIROBI.

(i) **COMMERCIAL AREA.**—A scheme for this area was prepared in 1928. The area is about 700 acres, already largely developed. The scheme is being worked to as a non-statutory development plan subject to reconsideration as may be found desirable.

(ii) **DUKE STREET AREA.**—This is an area of about twenty-five acres, the re-planning of which has become necessary owing to bad subdivision of properties and inadequate provision of streets. A scheme has been prepared and has been adopted as a non-statutory development plan. Considerable progress has been made by direct negotiations with plot holders.

(iii) **BAZAAR AREA.**—Two schemes for the control of development in the Bazaar Area and for the suppression of obsolete sanitary lanes were in course of preparation by the Nairobi Municipal Council as Town Planning Authority; Scheme No. 1, covering the larger portion of the Bazaar Area, being formally submitted for Government approval in December, 1936.

(vi) **CITY SQUARE.**—The design for the City Square, the central feature of which was the new Supreme Court, was approved in 1930 and was amended during 1935. The Supreme Court and also the new Municipal Offices were completed during 1935 and are now in occupation.

3.—GENERAL.

Preparation of development plans and revisions of existing Township layouts were completed during 1936 for Thika, Meru, Embu, Yala, and other Townships. Control of development is effected in accordance with provisional development plans already made or in course of preparation.

Consideration was given to the Zoning of Malindi and to the question of the subdivision of holdings on the sea front, in view of the prospect of Malindi becoming a popular seaside holiday resort.

(3)—WEIGHTS and MEASURES

The Standards of Weight and Measure legalised for use in trade are the Imperial Pound, Yard and Gallon as defined by the Imperial Weights and Measures Act, 1878.

The authorised denominations of weights and measures are the same as those in use in Great Britain, but with the exception of the 100 lb. or cental weight and the addition of the 4½ gallon measure (5 American gallons approx.)

Metric weights and measures legalised for use in Great Britain by the Weights and Measures (Metric System) Act, 1897, may be legally used in the Colony.

The use of some of the older measures still prevails in the outlying districts, the principal being the pishi, equivalent to 0.65 gallon, the kibaba, equivalent to 26 fl. oz., the term korja is also in use for a score, used in measuring poles.

The term frasila is still in use as a commercial term, but is always qualified by reference to the Imperial pound. The usual equivalent is either 35 lb. or 36 lb. and varies in different districts and with different commodities.

The paraffin or kerosene tin made to contain 4½ gallons is in common use among the natives for transactions in grain, potatoes and coffee but endeavours are being made to introduce half bushel measures as a unit for transactions of this nature.

The use of Imperial or Metric weights and measures is enforced in the principal trading centres and a regular system of annual re-verification and inspection is carried out.

EXPLANATORY NOTES

1. The statistical year is reckoned from 1st January to 31st December, inclusive, and figures shown in these returns cover all imports and exports during that period.

2. The following are definitions of terms used in these tables :—

“*Domestic Produce*” means goods, the growth, produce or manufacture of Kenya and Uganda.

“*Home Consumption*” is a technical term in use, and does not imply that the goods have been actually consumed in Kenya or Uganda, but that they have passed into possession of the importer and that duty has been paid on that portion liable to duty.

“*Value*”.—The value of imports is given as the value “ex-ship” at the port of entry ; such values exclude trade and cash discounts, but include freight, insurance and the value of the packages containing such goods, together with any commission paid.

For goods exported, the produce or manufacture of Kenya and Uganda “f.o.b.” Mombasa value is given while this value is also given for re-exports from open stocks. In the case of exports from bond, the value recorded is that at which the goods were originally warehoused.

“*Country of Origin*”.—Imports are credited, where possible, to the country in which the goods have been grown, manufactured or produced ; in cases where particulars of origin are not available, the goods are credited to the country of despatch.

“*Country of Destination*”.—By “countries of destination” is meant the countries of destination so far as can be ascertained at the time of shipment. In cases where particulars of ultimate destination are not known, the goods are credited to the declared country to which they are consigned.

3. The summary tables referring to imports (Nos. Most of the fishing at present is done with boats and nets that are unable to face a rough sea and in rough weather fish is often difficult to obtain.

(4)—WATER POWER

The demand for electricity in the township of Nairobi and surrounding districts is met by the hydro-electric station on the Maragua River at its confluence with the Tana. This scheme is supplemented by the hydro-electric station on the Thika River. Future demands may be met from the Tana River in the stretch extending from just above the infall of the Maragua River to the falls at Seven Forks. There are a number of small schemes installed and operated by private landowners for working farm factories, principally on sisal and tea estates.

(5)—INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES

KENYA ALUMINIUM WORKS LTD., MOMBASA.—Manufacture of utensils from imported circles and sheets.

SOAP WORKS.—Principally at Mombasa, but there are many others scattered throughout the Colony. Total production 10-12,000 cases per mensem.

KENYA BREWERIES LTD., NAIROBI.—Beer and Stout. Production in 1936 approximately 131,675 standard gallons.

KENYA ORCHARDS LTD., MUA HILLS.—Jams and bottled soft fruits.

UPLANDS BACON FACTORY.—Bacon and Hams.

SUGAR MILLS, 6.—Output of refined sugar in 1936, 14,684 tons.

TEA.—13 factories. Production of prepared tea in 1936, 8,611,076 lbs.

BUTTER.—5 FACTORIES OPERATED BY THE KENYA CO-OPERATIVE CREAMERIES LTD.—The total production of butter in 1936 by these five factories and a further factory, privately owned but affiliated with the Kenya Co-operative Creameries Ltd., was 3,056 203 lbs. Cheese is also manufactured.

In addition, mention may be made of timber sawmills, flourmills, coffee cleaning works, gold mining, minor creameries, native handicrafts, one cement factory grinding imported British clinker, the production of blood and bone meal fertilisers at the Nairobi Municipal Abattoir, expressors of commercial oils, aerated water bottlers and miscellaneous small foundry and engineering shops.

*(6)—SUMMARY OF INDUSTRIAL DEVELOPMENT

AGRICULTURAL

(1) ACREAGE AND DEVELOPMENT.—The total area under occupation by Europeans as at the 28th February, 1934, was 5,138,324 acres; of this area 556,182 acres were under cultivation, while it is estimated that 2,302,672 acres were developed under livestock.

(2) OCCUPATION.—The number of occupiers as at 28th February, 1934, is given at 2,027, a decrease of 75 from that of the preceding year. The average area cultivated per occupier is 274 acres, and the area developed under livestock 1,136 acres, equivalent to a total of 1,410 acres per occupier. On an average each occupier exported produce to the value of £763 during the year.

(3) CROPS.—The area under maize harvested during the year decreased by 51,069 acres. The area of wheat harvested increased by 4,887 acres. The area under Coffee increased by 1,851 acres, and that under Sisal by 1,661 acres.

(4) LIVESTOCK.—The number of cattle in the possession of Europeans decreased by 1.16 per cent during the year. The number of pigs increased by 2.34%; while wool-bearing sheep showed an increase of 12.2 per cent.

*From the Agricultural Census, 1934. No Census was taken in 1935 and the figures for 1936 were not available at the time of publication of the 1936 Blue Book.

FORESTAL

Prospects were brighter during the year and the revenue of the Department improved by £2,000 over the year previous. Timber sales remained steady but fuel sales showed a decided improvement.

Concessions and Licences			General information regarding the industry and the possibilities of development
Concessions, cutting licences, etc.	No.	Area covered Acres	
Sawmill licences	19	435,648	<p>No further cutting rights for timber exploitation were granted during the year, and the figures of acreage under licence to Sawmills remained the same as in the previous year.</p> <p>It is estimated that, apart from the areas being exploited at present, some 975,000 acres carry commercial timber, of which approximately half is at present economically inaccessible. This is a conservative estimate based on existing Forest Reserves, and it is probable that, when further areas are reserved and as the survey of the Colony's timber resources proceeds, a much greater area will be found to be available for timber exploitation, as soon as trade conditions call for further development.</p> <p>The demand for local timber remained constant during the year, and the quantities cut in Forest Reserves amounted to 1,026,727 cubic feet including pit props and fence posts. Fuel sales rose during the year mainly owing to increased demand from the Railway.</p> <p>The quantity of timber sold is small compared with the quantity available and there is plenty of scope for a large increase in local consumption and the development of an export trade.</p> <p>Endeavours to foster an export trade are continuing and in this direction much is hoped from the East African Timber Exhibit at the Johannesburg Exhibition. The East African Timber Co-operative Society are also working towards this end by improving and guaranteeing the quality of their timbers.</p>
